

To our valued customers,

DeCarolis Truck Rental Inc. is committed to ensuring that your business has access to all of the value added transportation services you have come to expect from us during these unprecedented times.

The Coronavirus (Covid-19) has impacted businesses dramatically and challenged not only the ways in which we conduct business and the effects on Supply Chain transportation, but also the effects on our normal daily lives. In an effort to minimize the disruption relating to your transportation delivery systems, **all DeCarolis Branches throughout Western and Central NY will continue to operate as usual with normal business hours.**

Our Operations, Administrative and Safety Teams are taking great care to make sure that our facilities are cleaned and sanitized following CDC guidelines. We are taking measures to ensure that rental vehicles are cleaned and disinfected upon departure and return. Your vehicles when serviced, will be cleaned and disinfected in the cab areas where technicians have worked.

All employees are instructed to stay home if they, or an immediate family member are having symptoms relating to Covid-19 or Influenza. Lastly, we've added safety to our employees and customers by limiting and scheduling vendor visits, deliveries, and Branch transfers in an effort to stop the spread of viruses.

DeCarolis will continue to monitor this fluid situation closely. We are prepared to make any necessary adjustments as events dictate. In the meantime, please continue to **Depend On DeCarolis** to provide your company with the same high level of services your business deserves.

Please do not hesitate to contact us for all of your Leasing, Rental, Service, and Heavy Duty Parts needs.

Thank you.

Michael J. Margarone
